10-Point Website Checklist for Small Businesses

Is your website ready to bring you clients?
Tick each box and see how you score.

Zainii Web Studio
Websites for small businesses • @zainiiwebstudio

Part 1: Look and feel

Points 1 to 5. Tick a box when your website does it well.

1

FIRST IMPRESSION

A clear headline

Visitors should understand what you do and who it is for within 5 seconds of landing on your homepage.

☐

2

FIRST IMPRESSION

One clear call to action

Show one main button near the top, like “Book Now”, “Get a Quote” or “Contact Us”, so nobody has to guess the next step.

☐

3

FIRST IMPRESSION

Simple navigation

Keep the menu to 4 to 6 items and make sure the Contact page is easy to find from anywhere.

☐

4

LOOK AND FEEL

Consistent colours and fonts

Stick to 2 or 3 main colours and 1 or 2 fonts. A consistent look makes a business feel professional.

☐

5

LOOK AND FEEL

Good quality images

Use sharp, relevant photos. Avoid blurry or stretched pictures, and compress them so they do not slow the page down.

☐

Part 2: Trust and results

Points 6 to 10. Keep going, you are halfway there.

6

TRUST

Proof that you are real

Show reviews, testimonials or past work, plus a short About section with who you are and what you do.

☐

7

MOBILE AND SPEED

Works well on phones

Text should be readable without zooming and buttons easy to tap. Most visitors browse on their phones.

☐

8

MOBILE AND SPEED

Loads fast

Aim for about 3 seconds or less. Compress large images and remove scripts or plugins you do not need.

☐

9

GETTING CLIENTS

Contact details are easy to find

Put your phone, WhatsApp, email or a contact form where people can see it, and test that it really works.

☐

10

GETTING CLIENTS

The basics are in place

Check for the padlock (HTTPS), working links, social media icons and a clear page title so people can find you on Google.

☐

How did you score?

8 to 10

Great shape

Your website is working hard for you. Keep it updated and fresh.

5 to 7

Good start

A few quick fixes will make a big difference to how many visitors turn into clients.

0 to 4

Needs attention

Do not worry. Fix one point at a time, starting with the first three.

What to do next

- Pick the 3 points you did not tick.
- Fix the easiest one today, even if it takes only 10 minutes.
- Look at your website on your phone, as a visitor would.
- Ask a friend what they think your business does after 5 seconds.

Want a free website review?

I will look at your website and tell you what to improve.
